

**FLAVOR
OF
POLAND**
with Aleksandra August

“**Flavor of Poland**” is a brand new, culinary-travel television series which will, for the first time in the history of American Public Television, present the country of Poland to American TV viewers like they’ve never seen it before! The 13-episode series will highlight the beauty, traditions, monuments, history as well as the current modernity of Poland along with a full range of its unique flavors, both the old and the new.

The American TV viewer will be taken along for this exciting journey through Poland by host, **Aleksandra August** - an American actress of Polish descent, born in Poland and raised in the USA.

In every episode of the series Aleksandra visits a specific region of Poland (a total of 13 regions and over 30 cities and towns) teaching viewers about the local history and heritage, showing them the area’s iconic monuments, sharing its culture and uniqueness. Along the way she uncovers the secrets of Polish cuisine, both the historical riches full of exceptional traditions, as well as its modern tastes, sharing them all with U.S. television viewers. The characteristic dishes that Aleksandra discovers in each region of Poland that she visits then become the basis for recipes that she recreates in her own kitchen – a cooking segment featured at the end of each episode.

For several years the program’s authors and producers - Edyta Ślusarczyk and Robert N Wachowiak from Independent Film Factory, Inc., together with WTTW (Window to the World), one of the leading APT stations from Chicago worked to create an ideal program formula that would successfully promote Poland around the U.S. They are confident that **Flavor of Poland** will satisfy even the most demanding tastes of American Public Television viewers.

The series will appear on American Public Television beginning January 2020 and will be presented via APT stations throughout the United States over the next three years, to which 300 million Americans have access!

Information about the producers:

“Independent Film Factory” is a film and television production group. Among its achievements is the documentary film about **Andrzej Golota "Endrju"**, which received a significant award at the Polish Film Festival in America in November 2014, and the prestigious **Silver Hugo Award** at the American Television Film Festival in Chicago in 2015. In 2016 the group produced a documentary film – “**It all started in Greenpoint,**”

“**Falcons of Freedom**” (“**Sokoły Wolności**”, 2017), the company’s most recent documentary production, is a very important film that discovers and introduces the role of the United States and Canada and its Polish communities in the fight for Poland’s independence during WWI. The story is told through the prism of a young American of Polish descent who is looking for his roots. The film is very universal in that it talks not only about the importance of the fight for freedom but also about the essence of who one is and where one comes from. The film’s value is further enhanced by unique archival footage from the WWI period which had never been shown publicly before.

The official Flavor of Poland website will be launched as of December 27th. All information and updates about the series broadcasts in specific States will be available on the site.
